

A close-up photograph of a hand with light-colored nail polish using a brass key to unlock a door. The door is dark green and features a silver-colored handle with a circular lock mechanism. The hand is positioned on the right side of the frame, and the key is inserted into the lock. The background shows a white door frame and a brick wall on the left.

Bold

Bold Smart Lock

Keyless access. Smart, secure, and simple.
Introducing Bold: the smart Bluetooth lock that seamlessly combines security and convenience. Installed in minutes and controlled via your smartphone or personal backup PIN. No keys, no worries. Because life is already busy enough.

The Bold Smart Lock connects wirelessly to your phone via Bluetooth.

encryption

Multi-layer, end-to-end, standards-based protocol using TLS and AES-128-CCM encryption.

smart home

Works with smart home platforms like Homey and Google Home to enable thousands of smart automations.

marks of conformity and certification

SKG*** certification

With SKG*** certification, the Bold Smart Lock offers top-level security and meets the requirements of the Dutch and Belgian Politiekeurmerk Veilig Wonen.

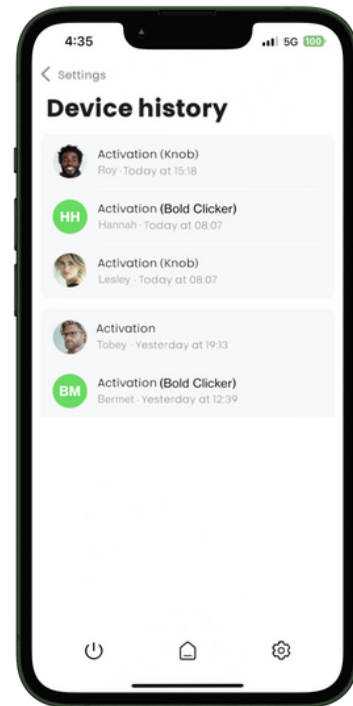

lock activation

access methods

- Control via app (also works offline)
- Manual unlocking with push button ('Push & Go')
- Backup PIN with unique rotation pattern
- Automatic keyless entry
- Remote unlocking via Bold Connect
- Unlocking with Bold Clicker

outdoor/indoor

The Bold Smart Lock is suitable for doors with both an interior and exterior side, and not for gates or doors with two exterior sides, such as garden gates.

Features in the Bold App:

- Easily manage users: share or revoke access with a single click
- Set access schedules: permanent, weekly, or temporary
- Add backup PIN codes for emergencies
- Check battery status and adjust settings
- View the activity log (visible to administrators only)
