

Be Bold.

Bold Connect

Enhance the functionality of your Bold Smart Lock by adding a Bold Connect. Safely activate the lock from any distance, or use it as a controller for your garage door when you arrive home.

Unlock a keyless life and connect to

- Multiple smart locks with one Bold Connect
- Insights of all lock activations, including Clicker and PIN use
- Activations and battery level status
- Digital safety by end-to-end data encryption
- Trusted visitors thanks to two-factor user and device authentication
- The easiest set-up as available locks are automatically discovered

The Bold Connect operates
via Bluetooth & Wifi

MECHANICAL SPECIFICATIONS		COMMUNICATION	
PRODUCT DEFINITION	The Bold Connect enables your Bold Smart Cylinder to be permanently connected in order to manage and activate your locks from the app from anywhere. With a slim form factor, mounting options and a USB(C) interface for an external flexible power supply the Bold Connect can be easily installed anywhere, out of sight, or integrated into existing access control solutions.	BLUETOOTH 5.0 LONG RANGE	The communication between Bold Connect and a Bold Smart Cylinder is via Bluetooth 5.0 Long Range. This enables the Bold Connect to connect and communicate more easily with many Bold Smart Cylinders.
HOUSING	PC, PC/ABS, RoHS, REACH compliant	WIFI	The Bold Connect is connected through Wi-Fi in order to communicate with your telephone. Permanent Wi-Fi (802.11 b/g/n) internet connection required.
